Qualification Exam Report

Auditor Name: Rocky Kimball

Sponsoring Registrar: Entela Inc.

Exam Date: Oct 23, 1999

Certification Exam Sections:	Meets Requirements	Needs Consideration	Does not meet Requirements
• ISO 9000	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• SPC	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• MSA	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• APQP/PPAP	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
• FMEA	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

The qualification exam is intended to evaluate the auditor's overall understanding of these subjects. Exam results will be sent to the sponsoring certification body. Results are informational and should be used for professional development. Auditors are responsible for this material and will be retested on all core tools and ISO 9000 as part of the recertification exams.

- **Candidates who fail any of the Core Tool sections** (APQP/PPAP, FMEA, MSA, SPC or ISO 9000) of the Qualification Exam are strongly encouraged to attend the corresponding core tool module(s) at a DaimlerChrysler, Ford & General Motors sanctioned training program offered worldwide. Or consider taking remedial training utilizing whatever methodology they believe is appropriate; however they may enroll directly into the QS-9000 recertification training and exam.
- **Candidates receiving "Needs Consideration" results** have passed the core tools and ISO portions of the Qualification Exam; however, show weakness in the areas indicated. These auditors should also consider taking remedial. These candidates may enroll directly in the QS-9000 recertification training and recertification exam.
- **Candidates who pass all sections of the qualification exam** may enroll directly into the QS-9000 recertification training and recertification exam.
